

TecsLine®

**TecsLine®: Best Performance  
chemicals for tough demands.**

---

**ShineTecs® – one bright idea.**  
 Best performance high sheen polish.  
 With 'shine & repair effect'.

## TecsLine® – Brilliant results for you and your customers.

AUWA is a leading innovator in vehicle care. Our best performance range TecsLine is one of our innovations for the new generation of vehicle washing.

This is based on an uncompromising approach – to always offer our customers the best possible solution.

**TecsLine® delivers highly efficient, first-class results throughout the entire washing cycle, in every step of the process.**

The **best performance range TecsLine®** comprises optimally tuned washing and care products and guarantees top results from pre-cleaning to vehicle drying. For efficient cleaning and care, low consumption and maximum cost effectiveness. Ultra-modern formulas and selected quality raw materials combine to make TecsLine the washing chemicals for tackling tough demands.

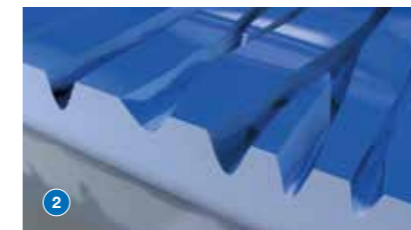

Our innovative and inventive products are not an end in themselves – all our developments are consistently geared to ensuring maximum customer benefits and to the changing needs of customers and operators alike.

### Your advantages:

- More customers
- Greater customer satisfaction
- Highly efficient products
- Easy manual handling
- Less time required
- More success

### ShineTecs® – how it works:

- 1 In everyday traffic, the paintwork surface picks up tiny microscopically fine indentations, preventing the light from reflecting to its maximum effect. The paintwork dulls.
- 2 When washing with ShineTecs and its unique acryl-ionic formula, these tiny dents get filled in with a gloss layer that lasts for a long time on the paintwork.
- 3 With each wash, the new layer becomes thicker and the car paintwork soon gleams like new again. This is the unique 'shine & repair effect' of ShineTecs. **ShineTecs® – one bright idea.**

# TecsLine® – best performance range for effective cleaning,

InsecTecs®

## Special pre-cleaner for insect removal

InsecTecs is an alkaline insect remover for the paintwork-friendly pre-cleaning of organic residues. It quickly and reliably removes insects, bird lime and other stubborn dirt.

- High-performance pre-cleaner with excellent foaming action
- Suitable for manual or machine use
- Even with a high alkalinity - excellent paintwork compatibility is still provided
- With fresh lime fragrance

PowerTecs®

## Powerful pre-cleaner for professionals – highly alkaline

PowerTecs is the best performance pre-cleaner of the new product generation. The innovative formula rapidly and effectively cuts through even the toughest of dirt and grime on vehicle surfaces. Also suitable for use as an engine and motor bike cleaner and in touchless car washes.

- Alkaline pre-cleaner suitable for manual and machine use
- Excellent foaming and cleaning action
- Excellent material and hardness compatibility
- Advanced formulation for outstanding shine
- For pre-spraying equipment, chemical spraying arches, spraying and high-pressure devices
- With fresh lime fragrance

WheelTecs®

## The triple-action wheel cleaner

WheelTecs is a highly efficient special cleaner for steel and alloy wheel rims. It makes light work of stubborn dirt such as brake dust and dried-on traffic film. With innovative dry-on protection: residues remain soft and are easy to remove.

- Alkaline wheel cleaner suitable for manual and machine use
- Effective removal of stubborn dirt and grime
- Rapid action
- With built-in dry-on protection
- Thanks to its dense, voluminous foam it can also be used as a wheel cleaning foam

FoamTecs®

## The active foam with sensational foam generation

Gentle to the vehicle surface, highly effective and pleasantly fragranced: FoamTecs is the premium active foam. Even at very low dosage, it produces an impressive voluminous active foam. FoamTecs is suitable for any quality of water and all water conditioning systems.

- Voluminous foam even at very low doses
- Excellent paintwork compatibility
- Boosts the effectiveness of the brush shampoo
- For foaming equipment, spray systems, high-pressure devices, self-service car washes
- With an intense, fresh lime fragrance

ShampooTecs®

## Highly effective special shampoo with a versatile range of uses

ShampooTecs can be used as highly effective shampoo, active foam or pre-cleaner. The good wettability ensures outstanding cleaning performance. Also suitable for use as a fuelling area cleaner.

- Effective foaming action
- Unique high gloss finish
- Highly effective detergents remove even stubborn dirt and grime
- With fresh lime fragrance

# best shine and maximum paintwork protection.

DryTecs®

## Drying aid concentrate with rapid dispersal of water film and sensational beading effect

DryTecs guarantees perfect drying results on all paintwork and glass surfaces. The innovative formula produces an impressive beading effect, disperses the film of water extremely quickly over a large area, even at high conveyor speeds.

- Efficient drying results on all paintwork and glass surfaces
- Extremely rapid dispersal of the film of water over a large area
- Instant and residue-free run-off of the water droplets, even at high conveyor speeds

ShieldTecs®

## The high-end polymer – the second skin for paintwork

ShieldTecs offers the best performance and uses OMP technology to provide the paintwork with lasting protection against harmful environmental influences such as UV radiation, insects and acid rain. This next-generation, high-end wax delivers fast and effective drying results coupled with a unique beading effect and an impressively deep shine. Nothing touches it!

- Best performance wax treatment featuring advanced OMP technology
- Long-lasting paintwork protection
- Unique beading effect
- Can be used as cold or hot wax
- With a pleasant cranberry fragrance

RainTecs®

## The intensive wax treatment with cherry fragrance

The perfect finish for car washing with outstanding beading effect. Gentle and gloss-enhancing components support the value retention of the vehicle.

- Intensive wax care with sensational beading effect
- Protection, care and shine all in one
- Excellent dispersal of the water film
- Can be used as cold or hot wax
- With intensely fruity fragrance of sweet cherries

ShineTecs®

## High-gloss polish – one bright idea with 'shine & repair effect'

When washing with ShineTecs, tiny micro-dents in the paintwork surface get filled in with a protective layer, leaving a long-lasting shine. With each wash, the new protective layer becomes thicker and the car paintwork soon gleams like new again.

- Best performance high gloss foam polish with paintwork 'repair' function
- Unique protective acryl-ionic formula for a deep, long-lasting shine
- Assists drying due to its beading effect
- With a pleasant jasmine fragrance

PolishTecs®

## Foam polish with intense beading effect

PolishTecs is the best performance foam polish with excellent care and protection properties, plus a fruity raspberry fragrance. PolishTecs® is characterised by its powerful water-repelling action and exceptional beading effect.

- Outstanding protection and care of the surface
- Produces an intense high gloss finish
- With fruity fragrance of raspberry

**ShieldTecs® – the second skin.**  
 Best performance for paintwork.  
 And your sales.

## TecsLine® – product overview.

Product	Art.-No.*	Packaging	pH-value	VDA conformity
<b>Insect removing/Pre cleaning</b>
